

COMPLEMENTARY COLORS

Hue is the pure color with no mixing

Tint is the hue mixed with white

Shade is the hue mixed with black

High Intensity is the pure color of the hue

Low intensity is when the hue is mixed with its complementary color creating a muddy color

Such as: yellow and purple/ blue and orange/ green and red

Choose an object to draw

Practice in your sketchbook

On a 12 x 18 sheet of paper measure out three equal boxes with the measurements of 4.5 x 10 with an inch for a boarder and between boxes

Draw your object in each box

One box will be orange and blue

One box will be purple and yellow

One box will be green and red

Showing hues, tints, shades, high intensity, and low intensity color your object
