

# Shape Creature

9x12 paper

You are to use only the three basic shapes to create a creature of some kind.

The three basic shapes are Circle, Square, and Triangle.

Use your imagination to create this creature. This is your turn to make something up.

The smaller the shape the more organic it can become.

The creature needs a background. This also may only be made up from your 3 main shapes.

You will not color this project. It is strictly graphite on paper.

## How I grade this project

- 6: Must use all three shapes
  - Circle
  - Triangle
  - Square
- 5: No organic (blobby) shapes
- 7: Must have outer body, eyes, nose, ears, mouth, legs, and arms.
- 5: Give your creature atmosphere/background
- 5: Keep the paper clear of smudges/ used correct medium/ uncolored
- 2: The page must be full of content
  - The creature must take up space, (no small creatures unless they are additional)
  - The background must be adequate for the space allotted.
- 30 Total Points
